The Kiss is a Berlin-based DJ and producer whose sound merges dark, driving grooves with futuristic textures and cinematic energy. His sets flow with smooth, seamless transitions, unfolding like a story – a journey through shadowy atmospheres, pulsating rhythms, and moments of unexpected light.

Balancing minimal, percussive darkgroove with hypnotic synth lines and playful vocal manipulation, The Kiss creates music that feels like a digital dream – sleek, cool, and deeply immersive. It's a sound that captures the essence of a neon-lit future: underground, magnetic, and endlessly in motion.
